08/14-07/15

Predoctoral Psychology Intern

University of Alabama at Birmingham, Birmingham, AL

1) Psychoeducational Clinic (PEC) / Behavioral Assessment Clinic (BAC)

Supervisor: Kristy Domnanovich, Ph.D.

Provided assessments to children and their families presenting with a wide variety of clinical problems, including autism spectrum disorder, intellectual disability, mixed developmental delays, ADHD, disruptive behavior disorders, and internalizing disorders.

2) Pediatric Psychology / Pediatric Neuropsychology

Supervisor: Dan Marullo, Ph.D.

Provided cognitive and neuropsychological assessments to children and adolescents presenting with various brain insults, including TBI, epilepsy and seizure disorders, genetic disorders, and other executive functioning deficits. Brief cognitive and behavioral pre-transplant assessments were conducted with patients awaiting solid organ transplants. Additionally, provided consultation-liaison services to children and their families who present with comorbid behavioral or emotional issues through a number of different units in the hospital.

3) Child Development Clinic (CDC) / Multiple Disabilities Clinic (MDC) / Infant-Toddler Clinic (ITC) / Newborn Follow-Up Clinic (NBFC)

Supervisors: Fred Biasini, Ph.D., John Houser, Ph.D., Kristy Domnanovich, Ph.D.

Conducted comprehensive developmental, psychosocial, and adaptive evaluations of children ranging in age from three to ten years old presenting with multiple impairments in development (e.g., language, motor, and/or cognitive delays) as a part of an interdisciplinary team. In NBFC, conducted cognitive and developmental evaluations of children as a part of a multidisciplinary team that follows children born with extremely low birth weight (less than 2.2 pounds) from birth to three years of age.

4) Autism Clinic

Supervisor: Sarah O'Kelley, Ph.D.

Provided empirically-supported assessments to children and their families who present with a question of an autism spectrum disorder. Assessments typically consisted of the *Autism Diagnostic Observation Schedule (ADOS-2)* and *Autism Diagnostic Interview (ADI-R)*.

5) VA Blind Rehabilitation Center

Supervisor: Chebon Porter, Ph.D.

Conducted new-patient intakes and provided CBT-focused treatment to Veteran patients presenting with a variety of psychological disorders (e.g., PTSD, depression, bipolar disorder). In addition, provided group therapy to support patients' adjustment to vision loss.

6) Project HEROES

Supervisor: Fred Biasini, Ph.D.

Provided evidence-based assessments to a population with severe emotional/behavioral problems who were at-risk for home displacement. Youth had an open case with Alabama Department of Human Resources, and assessments were provided to help guide decision-making for custody with the goal of providing safe, stable environments to children and adolescents.

10/14-12/14

PEERS Social Skills Intervention Group

Supervisor: Sarah O'Kelley, Ph.D.

Provided empirically-supported interventions focused on social skill-building and friendship development in adolescents diagnosed with an autism spectrum disorder or other developmental delay. Session topics included finding common interests, trading information, use and understanding of humor, identification of appropriate friends, dealing with bullying, and changing reputations. While children participated in a concurrent group involving didactic and role-play components, interventions were delivered to parents through a number of different

mechanisms, including the use of didactics and lecturing, psychoeducation, positive support and problem-solving.

06/13-06/14
